

## IMPORTANT INFORMATION ABOUT YOUR DRINKING WATER

### Monitoring Requirements Not Met for COAHOMA COMMUNITY COLLEGE MS0140033

Our water system violated drinking water requirements over the past year. Even though these were not emergencies, as our customers, you have a right to know what happened and what we are doing (did) to correct these situations.

*\*We are required to monitor your drinking water for specific contaminants on a regular basis. Results of regular monitoring are an indicator of whether or not our drinking water meets health standards. During 1<sup>st</sup> quarter 2021 01/01/2021-03/31/2021 we did not monitor or test for TTHM/HAA5 (Total Trihalomethane and Haloacetic Acids and therefore cannot be sure of the quality of your drinking water during that time.\**

#### What should I do?

There is nothing you need to do at this time.

The table below lists the contaminant(s) we did not properly test for during the last year, how often we are supposed to sample for these contaminants, how many samples we are supposed to take, how many samples we took, when samples should have been taken, and the date on which follow-up samples were (or will be) taken.<sup>2</sup>

Contaminant	Required sampling frequency	Number of samples taken	When samples should have been taken	When samples will be taken
TTHM/HAA5	1 sample every quarter	0	01/01/2021 – 03/31/2021	Before 06/30/2021

[Describe corrective action.]

For more information, please contact **VALMADGE T TOWNER** at **662-627-2571** or **3240 FRIARS POINT ROAD CLARKSDALE MS 38614**.

*\*Please share this information with all the other people who drink this water, especially those who may not have received this notice directly (for example, people in apartments, nursing homes, schools, and businesses). You can do this by posting this notice in a public place or distributing copies by hand or mail.\**

This notice is being sent to you by COAHOMA COMMUNITY COLLEGE. State Water System ID#: MS0140033 .
